

**Leading Global Organisation
Excellent Career Progression
St. Leonards Location**

Jord International is a solutions provider to the process industries operating mainly in the Oil & Gas, Power & Energy sectors.

We design, manufacture, commission and service bespoke process plant and systems to all the process industries in approximately 60 countries around the world.

We are a Sydney based company with globally based staff. We have a commitment to excellence, health, safety and the environment.

We like to think creatively and make a difference. We enjoy grappling with the more complex technical issues. Hence our motto: IDEAS ENGINEERED.

Due to ongoing growth and internal staff movements, an opportunity has become available for someone with experience in mechanical equipment to join the Minerals Division based in or St. Leonards office. You will be working in an inclusive environment that embraces change, new ideas, multiculturalism, respect for the individual and equal opportunity to succeed.

Key Duties:

Internal sales, quotations and order processing for the Spare Parts Department

Specific Position Requirements:

- Experience working with mechanical or industrial electrical equipment
- Experience in Internal Sales in the engineering sector
- Ability to read and work with mechanical drawings
- Parts Interpreting and CAD drafting experience an advantage

General Requirements:

- General computer proficiency
- Ability to work in a team environment
- Strong communication skills
- Reliability with solid work ethic

This is a full time permanent position with the successful candidate to be appointed on a 3 month probationary basis. Salary will be commensurate with skills and experience.

This position would ideally suit a person with a mechanical or electrical engineering or trade background.

To be considered for this opportunity please submit your CV and covering letter to careers@jord.com.au.
